ACQUISITION OF BLACKDOME MINE - R. Somerville, secretary,  
reports Claimstaker  
Resources Ltd. has reached an agreement in principle to acquire the  
Blackdome mine, located near Clinton, B.C. The agreement includes  
the acquisition of a complete 200 tonne-per-day milling facility, as  
well as miscellaneous heavy equipment and a camp.

During its operating career, the mine produced 7,000,000 grams  
of gold (224,000 ounces) from 338,000 tonnes of ore (371,950  
tons). A recent professional study indicates a total resource of  
73,000 tonnes (80,300 tons) grading 14 grams gold/ton (0.45  
oz/ton) exists within the present mine area.

Claimstaker plans an extensive diamond drilling program to  
begin shortly to confirm and extend the existing reserves, and to  
explore some two km of favourable geology, which to date has  
received only minimal attention. No purchase terms were disclosed.
