## YUKON REVENUE MINES LTD. [YKR-V]

**KOOTENAY PROPERTY** - Yukon Revenue Mines has 1994 exploration plans for the optioned Iva Fern claim group located between Salmo and Kootenay Lake.

**B.C.** Work planned include: trail building, opening of the Main adit, examination of old workings, drill pad clearing, diamond drilling in the area of the high silver-base metal assays previously reported. Then the drill will be moved 500 metres south to test the copper precious metals zone at the Lower adit. The drill will then mover 2,000 metres southerly along the zone where it will test a wide zone of copper-gold mineralization exposed in old hand trenches where the best reported sample assayed: copper 1.52%, silver 0.7 oz/t, gold 0.06 oz./t across a width of 24 ft.

Following receipt of the results of 1994 preliminary drilling, an expanded drill program may be planned.

Yukon Revenue Mines has \$337,000 cash, no payables and 90,000 shares in Pacific Sentinal trading at \$3.65, or \$328,000. Additional financing is being sought.
