QUARTZ HILL DRILLING UNDERWAY - Larry D. McLean, director,  
reports Wealth Resources

Ltd. is conducting a 1,000-foot diamond drilling program in the  
Quartz Hill area of its Sawmill Creek/Perry Creek gold properties

located 20 km northwest of Cranbrook, B.C. Samples taken earlier  
this year from a trenching program returned assay results of up to 9  
ounces gold per ton. The company plans to drill five holes varying  
from 150 feet to 350 feet deep to test the property for a shear-hosted  
high grade gold deposit. The drilling program is testing an area  
adjacent to the Quartz Hill open pit mine which, during the 1970's,  
produced 1.725 tons of ore with an average grade of 0.25 oz.  
gold/ton. (SEE GCNL NO.207, Oct.28/94, P.7 FOR OTHER  
PROJECT INFORMATION)
