PACIFIC VANGOLD MINES LTD.

[PVM-V] 6,133,675 SHS.

15 FEET OF 0.49 OZ.GOLD/TON CUT - Dal S. Brynelsen, president,
Pacific Vangold Mines Ltd.,
reports a recently completed diamond drill hole on the 100%-owned
Gertrude claim at Rossland, B.C. has intersected 15.0 feet grading
0.49 oz. gold/ton from 537 to 552 feet in drill hole NB-94-1.

This intersection is 100 feet down dip and along strike from the
1991 discovery hole which assayed 0.41 oz.gold/ton over 14.8 feet
and is 250 feet west of the Main War Eagle/Number One vein which
produced some 600,000 ounces of gold at the turn of the century.

The company is currently proceeding with additional step-out
holes on the Gertrude claim to further test the western extension of
the War Eagle Vein.

Meanwhile Pacific Vangold is drifting on its 100%-owned
Evening Star Mine, also located at Rossland, east of the main Le Roi
Mine which produced 3,000,000 ounces of gold at the turn of the
century. A detailed report will be issued shortly. (SEE GCNL
