MORE HEARNE HILL ASSAYS - Hugh Grenfal, president, reports Booker Gold Explorations Ltd. has received assays from diamond drill hole 94-3 drilled on the 100%-owned Hearne Hill property located 15 km north of Noranda's Bell Copper Mine and 65 km northeast of Smithers, B.C. A 4% NSR can be bought out for cash or shares. The hole is located 100 feet east of DDH 1 and 2 and was drilled at a -60° angle, azimuth 030° to a depth of 338 feet. The hole is mineralized throughout with grades similar to those found in holes 1 and 2. Three separate 15-foot sections at 93 feet, 123 feet and 268 feet graded about 0.4% copper and 0.005 oz. gold/ton (0.18g/t). A diamond drill contract has been signed with Tex Drilling Ltd. of Kamloops, B.C. and a second drill is now enroute to the property. (SEE GCNL NO.153, 11Aug94, P.2 FOR PREVIOUS PROJECT INFORMATION)
