AGC AMERICAS GOLD CORP.

[AGC-V] 5,855,369 SHS.

FURTHER TOODOGGONE ASSAYS RECEIVED - Henry Meyer,
president.

AGC Americas Gold Corp., has reported the remaining preliminary results of the 1994 Phase II drill program, conducted on the Finn Zone at the 100%-owned JD property located in the Toodoggone region of north-central B.C.

These values indicate economic mineralization continues open to the West and is also open to depth. Information obtained to date suggest this zone appears amenable to bulk mining methods.

HOLE NO.	INTERVAL FEET	LENGTH FEET	GOLD OZ/T
