Homestake Property - In addition to the new acquisitions, Sway is making application for permits to go underground at its 100%-owned North Homestake property, located 44 miles north of Grand Forks.

B.C. The plan is to drive an adit under a high grade intersection that has provided for 1.008 oz.gold/ton over 6 feet which included 1.0 feet of 3.236 oz.gold/ton. It is possible this vein system may be a continuation of the Union Vein system, also controlled by Sway, that provided for direct shipments of select ore in excess of 10 oz.gold/ton.

Rock Creek Gold Trend - Sway will also participate in further drilling at KET 28 on the Rock Creek Gold Trend in southern B.C., near the Crown/Battle Mountain Crown Jewel reserve of 1,800,000 ounces, where Sway has an assigned 25.5% interest. Last year a core hole intercept returned a weighted average grade of 1.982 oz.gold/ton over 2.43 metres. Results of these programs will be reported as assays becomes available.
