TOODOGGONE ASSAYS ENCOURAGING - Henry Meyer, president,  
reports AGC Americas

Gold Corp. has received further assay results from its 1995 Phase I  
drill program on the Finn Zone of its 100%-owned JD property in the  
Toodoggone region about 300 km north of Smithers, B.C. SEE  
TABLE OF ASSAYS OVERLEAF P.2. These results demonstrate the  
mineralized zone is open to the south and to the west with economic  
grades over significant widths. Drilling has resumed after a two-  
week period to catch up on assaying drill core. More assays are  
expected shortly. (SEE GCNL NO.158, 17Aug95, P.1 FOR  
PREVIOUS JD PROPERTY DRILL RESULTS)
