ECSTALL MINING CORP.

[EAM-V] 4,403,000 SHS.

INMET MINING CORP.

[IMN-T] 81,207,383 SHS.

CORRECTION - In yesterday's GCNL the reference to the fourth drill hole, A-95-16 should have read thus: This fourth hole, A-95-16, planned to be 750 metres long, has now been drilled to a depth of 266 metres and is targeted to hit the Akie deposit 325 metres downdip of previous hole A-94-4, which intersected a 19-metre true width of bedded semi-massive and massive sulphide mineralization 200 metres downdip from surface.

If drill hole A-95-16 intercepts Akie-style mineralization at the targeted depth, the deposit will be extended to twice the previously known depth.
