SILICA DEPOSIT OPTIONED - Harry Z. Bristman, president, reports
Banff Resources Ltd. has acquired by
option the S and M claim, located in the Greenwood Mining
Division, south-central B.C. The claims host a silica deposit.
Earlier analytical work indicates the silica rock could find acceptance
as a raw material in the manufacture of container glass. Some parts
of the silica bodies may be suitable for silicon metal production.

Subject to regulatory approval, Banff must pay \$7,500 and
100,000 free trading shares. A 3% NSR is reserved for the vendor,
with Banff having the right to reduce the NSR to 2% by paying the
vendor \$250,000. (SEE GCNL NO.186, 28Sept94, P.2 FOR OTHER
PROJECT INFORMATION)
