WESTMIN RESOURCES LTD.

[WMI-V.T.M] 47.110.620 SHS.

ORE-GRADE MINERALIZATION CUT - Bruce McKnight, vice president, corporate affairs. Westmin Resources Ltd., reports a third hole drilled to follow up the Marshall Zone discovery at the Myra Falls mining complex, Vancouver Island, B.C., northwest of the Battle Zone, has encountered ore-grade mineralization.

HOLE No.15-503, Inclined -45° Azimuth 335°
Coordinates at collar 44+92N, 10+10E
Elevation 3204 Metres

INTERVAL METRES	LENGTH METRES	GOLD GR/T	SILVER GRM/T	COPPER %	ZINC %
444.4-450.8	6.4	1.9	51.2	0.5	13.2
464.0-472.1	8.1	1.9	64.8	0.3	3.4

This intersection extends the Marshall Zone 55 metres to the west. The hole continued on and encountered the H-W Rhyolite footwall at 620 metres. At that point, there was a build-up of several metres of massive pyrite containing sub-ore grade copper and zinc which could be indicative of another nearby ore zone. (SEE GCNL NO.85, 3May95, P.1 FOR PREVIOUS MYRA FALLS DATA)
