LA ROCK MINING CORP.

[LAR-V] 17,202,063 SHS.

BRANDYWINE DRILLING RESUMES - Dr. Robert E. Lee, president, reports La Rock Mining Corp. has begun a further phase of diamond drilling on its 100%-owned, subject to 0.5% NSR, Brandywine gold property located 30 miles north of Squamish, southwest B.C. A program of 5,000 feet of NQ drilling is planned. Hole MC95-1 (-45°) is being drilled about 1,500 feet southeast of the DP Zone to test a previously discovered strong geochemical and pulse EM anomaly that has never been drilled before.

The company geologist is of the view the DP and McKenzie (MC) zones may be connected. If so, this will increase the drill indicated 250,000 ounces of gold from the DP Zone. (SEE GCNL NO.197, Oct.13/95, P.5 FOR PREVIOUS BRANDYWINE PROJECT INFORMATION)
