	189	186	174	182
Average Cash Costs	\$ 187	\$ 186	\$ 183	\$ 182

- (1) Gold and silver are accounted for as co-products at Eskay Creek. Silver is converted to gold equivalent, using the ratio of the silver market price to gold market price. This ratio was 72.4 ounces and 74 ounces of silver equals one ounce of gold for the three and nine months ended September 30, 1995, respectively.
- (2) Includes ounces contained in dore, concentrates and ore sold.
- (3) For comparison purposes, cash operating costs per gold equivalent ounce include estimated third-party costs incurred by smelters and others to produce marketable gold and silver. As a result Snip mine cash costs have been restated for 1994.
