TOPPER GOLD CORPORATION
[TGC-V] 6,115,993 SHS.
GRAND NATIONAL RESOURCES

[GAA-V] 8,294,704 SHS.

MAJORS INVESTIGATING BC PROPERTY - Peter Wishart, president of Topper Gold Corp.

and Grand National Resources reports several mining companies have requested permission to visit the Keremeos, copper/gold property on Keremeos Creek west of Penticton, B.C. Topper can earn a 40% interest from Grand National by spending \$250,000 on exploration. One geological team began sampling on the property on October 16th. A second and third team is scheduled to arrive shortly.

Reent sampling increased the size of the Laredo copper, gold, silver, lead, zinc anomalous zone to a width of 5,904 feet and a length of 8,875 feet. On the west side of the Laredo zone, the exposed Kero Vein was sampled and assayed by an independent geologist as 50.948 oz. gold/ton, 21.45 oz.silver/ton, 1.78% copper, 2.46% lead and 2.49% zinc.

Grand National and Topper Gold have been exploring the 176unit Laredo property since 1983. Previously reported diamond drill results include eight holes drilled on the Kero Vein system which averaged 0.4753 oz.gold/ton over intersections ranging from 3 metres to 16 metres.

Voisey Bay Update: Topper Gold acquired a 100% interest in eight claim blocks totalling 901 claims in Labrador. Two agreements have been completed for MANGO RESOURCES LTD. [MRH-V]

to buy a 100% interest in one property and option 75% in another. Bids are being solicited for aeromagnetic surveys of several of the properties. Ongoing negotiations with several other companies are progressing. (SEE GCNL NO.190, Oct.3/95, P.8 FOR MORE TOPPER/MANGO LABRADOR AGREEMENT DETAILS)
