NO. 179 (1995)
SEPTEMBER 18, 1995

LYSANDER GOLD CORP.

[LYX-V] 8,452,009 SHS.

FIRST LORRAINE DRILL RESULTS - Stephen Sopher, president, Lysander Gold Corp., reports the diamond drill program on the 100%-owned Lorraine property, situated northwest of Germansen Landing, B.C., is well underway. Initial drilling is on the Upper Main Zone where eight platforms have been established on the steep face of Lorraine Mountain and a total of 8,000 feet of BQ core has been drilled in 20 holes. Assay results have been obtained from the first four holes; see table overleaf P.1.

Drill holes L95-8, L95-11 and L95-12 were drilled from platform No.1. L95-8 was an extension of hole L94-8* where, for 302 feet, the hole graded 1.48% copper and 0.58 grams gold/tonne and 10.1 grams silver/tonne. L95-11 and L95-12 were designed to identify the possible southern limit to the high grade mineralization. L95-13 was drilled on platform No.2, about 300 feet east of platform No.1 Drilling continues. (SEE GCNL NO.167, 30Aug95, P.5 FOR PREVIOUS LORRAINE PROJECT DETAILS)
