DIAMOND DRILLING BEGINS - Eric Gilstead, president, reports

Navarre Resources Corp. has started a diamond drilling program on the 100%-owned, 48-unit, polymetallic Strike claims, located 18 miles north of Stewart northwest B.C. A new showing was recently trenched and some encouraging samples were recovered. The main visible mineral was high grade zinc which has been associated with higher grades of gold on this property. The target contains mineralized showings grading up to 2.3 oz.gold/ton and 429 oz.silver/ton, plus zinc and lead values.

In another development, a major mining company with a view to forming a joint venture has approached Navarre regarding its Jacobie Lake disseminated copper property located four miles from the advanced-stage Mount Polley copper/gold deposit near Williams Lake, B.C. (SEE GCNL/ NO.162, 23Aug95, P.4 FOR PREVIOUS STRIKE PROJECT INFORMATION)
