## NAVARRE RESOURCES CORP.

[NRV-V] 7,137,859 SHS.

STRIKE PROJECT UPDATE - Eric Gilstead, president, Navarre Resources Corp., reports visual examination of the recent drill holes on the 100%-owned Strike claims 18 miles north of Stewart, B.C. identified over varying thick sections of core include tetrahedrite, galena and chalcopyrite. The company has received another high grade sample from a new outcrop on the Strike claims. This sample assayed 0.369 oz.gold/ton, 5.48 oz.silver/ton, 10% zinc, 1.91% lead and 1.23% copper. The second drill rig is scheduled to start drilling this weekend.

In another development, Navarre also reports recent assessment work has returned some very encouraging sample results from the Marmot claims, located about 7.5 miles southeast of Stewart, B.C., about 25 miles southeast of the Strike claims. Assays range from a trace of gold and silver up to and including 2.25 oz.gold/ton and 8.23 oz.silver/ton. Some sample assays are as follows:

<u>SAMPLE NO.</u>	<u>GOLD / OZ/T</u>	<u>SILVER OZ/T</u>
A	0.85	0.67
B	1.26	0.84
C	0.93	0.74
D	0.35	5.74
E	2.25	5.19
F	0.23	0.76
G	0.67	0.74
H	0.23	0.67
I	0.15	8.23

Due to the current success on the Strike claims, the company

will entertain a potential joint venture partner. This property has good tonnage potential of high grade gold/silver in quartz veins (e.g. 500,000 tons at 0.84 oz.gold/ton and 1.92 oz.silver/ton). (SEE GCNL NO.183, 22Sept95, P.4 FOR PREVIOUS STRIKE PROJECT INFORMATION)
