## LEVELLAND ENERGY & RESOURCES LTD.

[LVL-V] 8,704,943 SHS.

CY PROJECT ASSAYS RECEIVED - Donald Coates, president,  
reports Levelland Energy &  
Resources Ltd. has received results from its preliminary exploration  
program recently conducted on its CY claims located southeast of

Stewart, northwest BC. The claims total 3,600 acres and are immediately adjacent to the Teuton Resources/Minvita Enterprises property currently being explored by drilling.

Levelland's exploration crew discovered a number of shear zones on the CY claims. Five chip samples from Shear No.1 averaged 0.48 oz.gold/ton and 22.37 oz.silver/ton. Three samples from Shear No.2 averaged 36 oz.silver/ton with minor gold values. Other shear zones that were sampled ran from trace to 0.42 oz.gold/ton and low to 49.5 oz.silver/ton.

Given these results from the CY claims and other exploration activity in the vicinity, Levelland will carry out further exploration as early as possible in the coming year. (SEE GCNL NO.168, 29Aug96, P.4 FOR PREVIOUS CY PROJECT INFORMATION)
