BARON GOLD CORP.
[BXG-V] 7,777.032 SHS.

DRILLING PROGRAM UNDERWAY - Harvey Dick, president,
reports Baron Gold
Corp. has retained Durfeld Geological Management Ltd. to spearhead
the ongoing exploration of the 100% owned Strebe Gold property,
located near the Tillicum Gold Camp in the headwaters of Caribou
Creek, 20 miles south of Nakusp, southeast BC. Baron has done
preliminary evaluation based on previous work on the property and
is mobilizing equipment to be on the property by August 14. It is
expected drilling will start by August 20.

Previous work has drill indicated and inferred reserves on this
property at 75,000 ounces of gold. When the program was
discontinued several years ago by other parties, the property was left
with potential to increase these reserves. The drill program will
resume on the old drill site.
