CANMARK INT'L RESOURCES INC.

[CNM-V] 6,558,084 SHS.

ZEOLITE SALE REPORTED - Christopher Lee, president, reports Canmark International Resources Inc. has agreed to sell Cominco Alaska Inc., a subsidiary of COMINCO LTD. [CLT-V, T. M], 51 tonnes of zeolite material. Cominco has been conducting environmental reclamation work on a trial basis which has been successful using Canmark's zeolite. Further work will be carried out with the additional zeolite material. Canmark mines and markets zeolite. Canmark's 100% optioned claims are located near Princeton, BC and contain proven reserves estimated at 3,500,000 tonnes and probable reserves of 38,600,000 tonnes. Zeolite is a generic term for an environmentally friendly mineral (clinoptilolite). Zeolite is used for gardening, stockfeeds, aquaculture, sewage treatment, water filtration, "kitty litter" and pollution control applications.
