The drill program was conducted by Homestake Canada on
 behalf of PRIME RESOURCES GROUP INC. [PRU-V, T],
 which has an option to earn a 55% working interest on Winslow's
 property by spending \$1,250,000 on exploration and paying
 \$200,000 over three years. This concludes the Phase I drill program
 on the Bronson Creek property. The company anticipates an
 extended exploration program next spring. (SEE GCNL NO.170,
