MORE MERRITT AREA - Brian Gracey, director, reports Capella
CLAIMS ACQUIRED Resources Ltd. has completed the
acquisition of an additional 875
hectares of property adjacent to the 100% optioned S-Claim Group,
located 40 km north-east of Merritt, BC. (SEE MAP OVERLEAF P.2).
Capella's mineral claims now cover a total area of about 1,800
hectares. The new territory includes numerous quartz vein and fault
zone targets.

Capella has also obtained further assay results from recent
exploration in the vicinity of the Glory Hill. An additional test pit
yielded a grab sample containing 40.93 oz. silver/ton and 0.545 oz.
gold/ton. Samples from the Discovery Pit have returned assay value
as high as 1.810 oz. gold/ton and 50.63 oz. silver/ton. These pits
are located at the zenith of geochemical, VLF-EM, Ronka, and
magnetic surveys. Also interesting was the discovery of precious-
metal bearing outcrop about 1,000 metres down-strike of the Glory
Hill. (SEE GCNL NO.207, Oct.28/97, P.3 FOR PREVIOUS PROJECT
