GOLDSTREAM (H.W.)

0 1 2 CM.

A black and white photograph of a dark, layered rock specimen, likely a sedimentary rock. The rock shows distinct horizontal banding or bedding. A scale bar is placed at the top, indicating a length of 2 centimeters. A label at the top reads "GOLDSTREAM (H.W.)". The rock surface is rough and textured, with some lighter-colored material visible along the edges and in the upper left corner.
