talking to Guy Allen, Aug 20/91  
about Sphero Mines on Knob Hill

520646  
Red Star  
92H/2

- Cu play - no Au analysis.
- lots of black jack in Knob Hill he thinks. He had good samples of black jack from here up until 10 years ago.
- Sphero - Spence Davis (75 yrs. then)
- found epq - qtz vein but couldn't really follow it
- did some work on S side of highway
  - soils + cut line. No trenching.

- trenched the Woodpecker with a cat.
- Allen in for a month. but wasn't here for drilling.
- he was in Red Star workings - can't remember anything.

Howard Ross - was lawyer and Spence Davis' partner.  
- may still be living.

- The project was a promotional thing. They weren't really looking for anything in particular. Copper was a big thing at the time.

- look for old prospectors' at Chamber of Mines, ect.

- another guy named Roy? (I render) was involved.

Chris Riley found Endnote.
