

EASY CLAIMS

Early Oct./78

At invitation of independent prospector, R. E. Mickle, our prospector, Potter, examined ground held by Mickle as Likely, B.C. Potter was impressed by Mickle's ability to pan free gold from widespread trenches and encouraged Silver Standard management to deal with Mickle. Potter spent a week (?) prospecting and sampling.

Oct. 18/78

R. W. Wilson visited the property and put together an informal option agreement with Mickle.

Oct. 25,29/78

Consulting geologist, R. H. Seraphim, and our geologist, John DeLatre, examined and sampled the showings. Their reports were largely negative.

Nov./78 (?)

Potter was instrumental in getting Ritchie together with a vice-president of Aquarius Resources. The idea of unitizing the Silver Standard option and adjoining ground optioned by Aquarius was discussed, but later dropped.

Dec. 29/78

Ritchie arranged Letter of Intent with Mickle.

May 15/79

Silver Standard's option was transferred to Mutual Resources.

Nov./79

Results of exploration are negative and the option agreement will be terminated.
