Attention: Mr. Wayne Roberts

Hi Wayne :

Sorry it has taken me so long to send you the Enclosed Data on the Vent project near Takla Lake. This belt sill needs a lot of work. After your talk at the HillTop I got all fired up again and went over the volumes of old reports and old files I have on this project. I can see a number of targets for my field season this summer.

Thanks again for your excellent talk on your FIRE LAKE project. It made me go out and get some more of your Stock.

I have also sent you a few rocks and reports from two other properties that I have available for option.

Looking forward to your comments on the Vent project.

All the Best this Summer

Regards

Lorne Warren.

PS: You may copy whatever data you want.
