FACSIMILE TRANSMISSION

TO: Dr. Rod Kirkland,
Fax # 613-996-9820

FROM: J.F.V. Miller
Fax # 604-677-4210

DATE: DEC 17 1990

RE: Telephone Discussion Tuesday, Dec 11, 1990.

I have marked the locations of the two anomalous stream sed samples with black dots on the following map. They both returned anomalous values in Pb, Zn, Cu & As.

I would very much appreciate any and all information available on the location & nature of the outcrop that you noted, as well as any relevant geology that can be used to assist us in evaluating the stream group. You can fax a reply to the above number, but would appreciate your calling ahead of the actual transmission, in case the computer system is in another mode & needs switching.

Thanks very much for anything you can do. JP

J.F.V. Miller Ph.D., P. Eng.
