

**PRELIMINARY GEOLOGY
OF THE SULPHURETS REGION,
B.C. (104B/8,9)**

After R.V. Kirkham, J.R. Henderson, M.N. Henderson, and T.O. Wright (1991) with contributions from J.G. Payne, P.D. Lewis, D.J. Alldrick, J.M. Britton, R.G. Anderson, and D.J. Thorekelson

May 13/93 U-Pb zircon samples

91 HSA
183-4

KL-90-59C
Bob Anderson (2 samples)

1857
1859 Ma
UBC-MDRU
(James
Macdonald)
* These rocks
were previously
thought to
be Silurian
to Pleistocene
by B.C. Geol.
Survey Branch

MITCHELL INTRUSIONS

Mf Felsic : syenite, monzonite

Mm Mafic : diorite, monzodiorite

LAYERED ROCKS

B BOWSER LAKE GROUP

HAZELTON GROUP

MD Mount Dilworth formation

H v Unuk River & Betty Creek formations

J Jack formation

Ss Sv STUHINI GROUP
sedimentary rocks; volcanic rocks

Geological contact

Thrust Fault

Fault

Pyritic (pyrrhotitic) altered rocks

Quartz vein stockwork

Vein

Approximate limit of mineral zone

May 13/93 U-Pb zircon samples
