

810097 MAY 29, 1970

Hello Gordon,

Making some progress, should finish Monday. I hired a local guy for a couple of days to help with chaining, digging holes and to collect a few samples

Please find enclosed plans of the TAT & FORT grids.

The line that is referred to as line WEST on the TAT sheet from Seigel is, in fact, over part of the ENDAKO ore body. This should help with your interpretation.

Ralph
