

# CORPORATION FALCONBRIDGE COPPER

DATE: April 4, 1984  
TO: A. J. Davidson  
COPIES TO: D. H. Watkins, M. J. Knuckey  
DE FROM: I. D. Pirie  
SUJET SUBJECT: REA GOLD OPTION - MINERAL INVENTORY

---

824596

The accompanying table compares the undiluted mineral inventory as calculated by the following methods:

- a) polygonal - long. section method,
- b) vertical section method,
- c) vertical section method separating Massive Sulphide and Barite zones,
- d) Buffam.

These are based upon the revised long. section.
