

Reece Drill Holes

- all @ 205°, -45°

① R #10 - test wk 1P + Cu x Zn anomalies on Line 65.

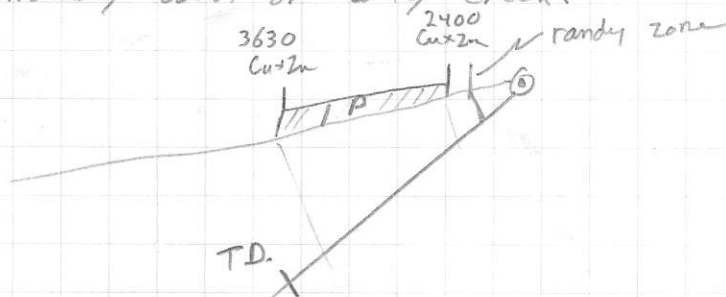

- drill through contact

Collar Location 14m @ 69° (NE) from L65W 24700N  
Est. Depth 120m.

Doug's? Following R10 move to CZ strat test  
between lines 72 + 74  
Randy East

② R #11 - test of lower 1P anomaly + associated Zn-rich  
Cu x Zn anomalies  
- collar is set somewhat back to catch extrapolated  
randy zone @ a shallow level. NB Randy Zone  
appears to subcrop just N of Lower weak 1P  
anomaly west of Silly Creek.

Collar Location 20 m @ 62° (NE) from L56+00N  
25+75N  
Est. Depth 100m

③ R#12 - test of upper mod IP Anom  
- Drill to overlap lower test (R#11) + hopefully catch  
Randy Zone @ greater depth  
Collar Location 20m @  $60.5^\circ$  (NE) from L54+00W  
25+75N.  
Est Depth 100m

④ R#13 - Test of strong IP anomaly + assoc Cu+Zn (to west)  
Collar Location 22m @  $104^\circ$  (ESE) from L58+00W  
22+50N  
Est Depth  $\approx$  110m
