← Assay File Definition Number, Typically A001.

Notes:

- Do not change /NAM, LNAM, /SCL, LSCL, or AUMM card definitions durin a project. Blanks may be changed hower.
- On AUMM card, right adjust names so that R.H. 4 letters make sense. They will be "stats" header names.
- Units of distance on S000 card are for survey coordinates, those on /SCL card are for downhole distances.
- To define XX type field put XX in upper tier, lower tier then becomes corresponding How and amount field.
- If additional "S" or "A" cards are required use another header form and cross out unwanted portions or enter "S" or "A" cards on keypunched portion on Form 2.

P.L.K. -A.K. - SEPT, 1984.
