Subject: CLOSURE OF BLACKDOME MINE, BRITISH COLUMBIA

Dear Sirs:

I am writing to inquire about your plans for final closure / abandonment with specific reference to **geological** materials (eg. maps, reports, models, etc). If there are any such **geological** materials which your company would like to donate to the Geological Survey Branch of the British Columbia Ministry of Energy, Mines and Petroleum Resources for the betterment of the industry/database systems, I would be very pleased to discuss the matter further. Obviously, we would need to be selective if there were large volumes of data. We are very concerned about the potential loss of **geological** data from mines that have recently closed or will close within the next few years.

Thank you for your consideration and support

Yours truly,

Tom Schroeter, P. Eng.
Senior Regional Geologist
