

DOVE CREEK

Mon, Aug. 13/01

- Neil Swift, Pres.

Sunny +30°C

WANTS
GSB CREST

Consultant, for Priority Ventures

- Gwene ^{Cathy} Bickford (ex-GSB)

- Greg Carriere - this is a "COAL"
proj. (not a CBM proj.)

- also with Jacques Houle, Kim Bellfontaine, Rick
+ Ed Taille (Mines-Nanaimo)

Photos: DD# #2 (~1800 ft. deep)
(2) (123 psi) [Site B]

- high security fenced area

'snoops' - Talisman Energy, Chevron, + + + }

- 10 intersects of coal in hole
(first "significant" one (i.e. >1m thick) @ 1200'
in Comox Fm.

- "Soft" to "semi-soft" ^{coking} coal (5-10 yr. proj.)
[2-3 yrs for natural gas?]

- First 2 holes "good" #3 - poor.
(Drilling on upside (edge) of basin i.e.
couldn't drill in "optimum" basin)

DD# #2

- At basement (contact with Karmutsen) - hit
nitrogen gas + magnetite + calcite (ancient
skarn)

882418

is need blow-out prevention technology on drill rig.

Boyles Bros. 56 - Aggressive Drilling (wireline)
 (H-size core - capability of 4000')
 - "good" work

Priority will cement all 3 holes now

NEXT? a) COAL - ~10 holes (shallow)

b) CBM - (natural gas) - 4 more holes

Photo: 10# #3 (~~poor~~ hole) (Site A)

Photo: 10# #1 - high pressure nitrogen at depth (Site "C")
 Discovery for coking coal potential

~~Total Footage Drilled~~

1787 + 1287 + 1127 m ~~mining water~~ ~ 4200 ft

~~Cost~~ ~ \$500k (1271 m)
 \$450k
