**Subject:** RE: Gibraltar - 2006 Production?

Hi Tom... using numbers released by Taseko Mines for the 2nd, 3rd and 4th quarters of 2006 (ending Sept. 06) and the 1st quarter of 2007 (ending December 31, 2006) I get the following:

Calendar 2006 metal production:  
Copper: 46.2 million lbs (20,955 tonnes)  
Moly: 717,000 lbs (325.22 tonnes)

Tonnes milled: 9.34 million tonnes

Might be worth to try and get a number for the Calendar Year from Taseko!

Bob

Can you confirm? I have Cu=27,300 tonnes and Mo=397tonnes (any Ag?)? Also - tonnes milled?

**Tom**
