Gentlemen, I gather I'm too late in replying? Paul - if you provided Lindsay with something, could I also get a copy? Thanks.

Tom

Subject: Isk Wollastonite Project

Hi Paul (and Tom if you are there)

I'm wearing my APEG hat for this - can you direct me to a good source of information on this project? Last I heard it was in the mine review process - is the back-up documentation for that (mining studies, ore reserves, geological reports etc.) accessible via a government website? If so, could you send me the link please? If not, what's an alternate source - I'm after more than the assessment filings, and in particular am interested in who participated in, and who supervised, the various individual studies for the project (particularly the engineering studies) during the period 1996 -1998.

Corporately, is the project still owned/operated by Whitegold Natural Resource Corp (the successor company to Whitegold Resource Corp)? If so, that makes life more difficult, as the latter is OTC, not TSX, listed. There still should be something on the BCSC website, but I haven't found anything useful yet.

Thanks in advance for any help you can give me on this.

Regards
 Lindsay

PS: Paul - unfortunately I won't be able to make it to Smithers next week. Hope you have a blast...
