Dear Art:

**Re: CANADIAN INSTITUTE OF MINING, METALLURGY AND PETROLEUM  
(CIM) - ANNUAL GENERAL MEETING, Vancouver, B.C., April 28-May 1, 2002**

It is my pleasure, on behalf of the Geological Society of CIM, to invite you (and possible co-authors), on behalf of Sultan Minerals, to present a paper on the geology and mineralization at the **Kena Project** at next year's Annual general Meeting (AGM) in Vancouver. The specific date would be **Wednesday, May 1, 2002**. As you probably know, the AGM comes to Vancouver about once in every **seven** years, so it represents a great opportunity for you and Sultan to 'profile' this new, exciting gold discovery. I will leave the title of your presentation up to you. I would very much appreciate confirmation of your presentation **at your earliest convenience**. I will require an Abstract by sometime in late November, in order to meet publication deadlines (maybe I can buy us a few more weeks?).

I thank you for your attention and hopefully - your commitment.

P.S. Continued good luck with the project!

Cc: Frank A. Lang

Yours sincerely,

Tom G. Schroeter, P.Eng./P.Geo.  
Senior Regional Geologist  
[VP, Geological Society, CIM]
