UP-COMING EXPLORATION ACTIVITY:

DEBBIE
(Aug. '93)

1) WHITE HAWK VENTURES INC. is actively pursuing its option to extract ore from the Debbie "900" zone. The company has completed most of the necessary permitting and it is gearing up for production. It could be underground later this fall.

2) BHP-MINERALS LIMITED completed a small exploration programme at the west end of the Island Copper pit in January. It is planning a similar programme east of the pit this fall.
