Flow Through

LYON Project

Andrey Res. - Lynn Lk. Mining

COW MIN. - Mosquito Cons.

Pan Oruana - Cariboo Gold ex

(ex-Placer) - Andy Laird - gold  
on 1500 ft. level

- Sutherland Brown - consulting

- new JV. venture soon

Aurum + Main Band Lst.

- most work below 4000 level.

Exploration designed to drift  
along Main Band Lst. (4000' level)  
(Also - Luke's Adit - Main Band  
Lst.)

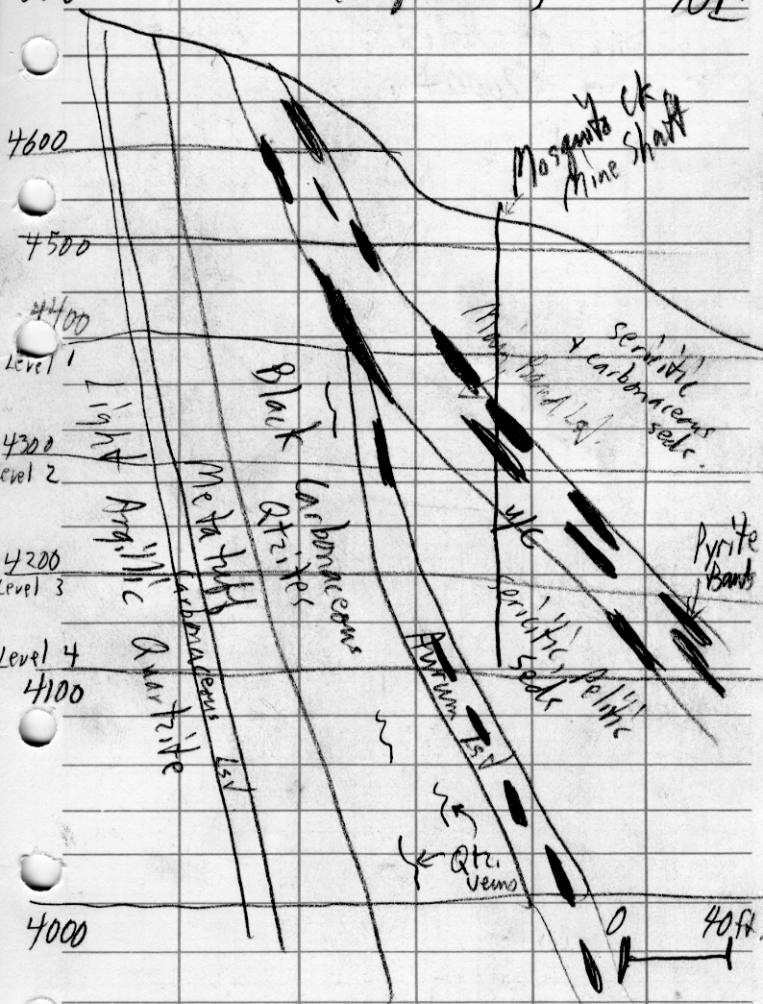

Z folding sig.

John's Lst  $\equiv$  Main Band Lst.

ISLAND MTN  
(Mosquito Ck.)

SW

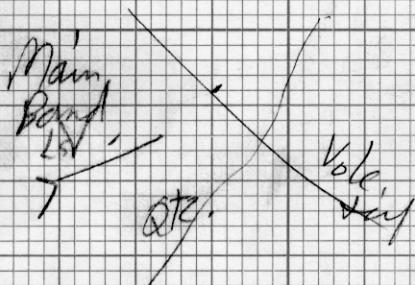

NE

- Idealized X-sec. by Don Sutherland  
- in 1987 Annual Report

① Jukes' Adit  
- in ~ 2000 ft.

② No. 1 Level

③ 4000 Level  
- started in June '88

Tiger strip texture  
vs Zebra "  
in Main Band Lst.

Flat faults are  
an absolute necessity  
to map to, decipher  
stratigraphy!
