Mr. Richard Hall  
Mine Geologist  
Mosquito Consolidated  
Gold Mines Ltd.  
P.O. Box 160  
Wells, B.C.  
VOK 2R0

Dear Richard:

Just a short note to thank you once again for taking the time to tour Cathy Lund and myself underground on the Island Mountain Property on August 15th. As a result of this tour and the open conversations with you and Don I feel I personally gained a great respect or more appropriately awareness, of the past, present, and potential of the famous Well's Barkerville camp. I am particularly impressed at the excellent work you people are doing with regard to the genesis of the pyritic ores. The syngenetic theory seems well advanced.

I hope you have excellent exploration success, particularly on the Main Band Limestone from the 4000 level. I look forward to my next visit when things are not so hectic on your part. I would appreciate it if you could keep me in mind for a future tour.

Yours sincerely,

Tom Schroeter  
Senior Regional Geologist

TS/pc

P.S. Your suggestion to visit the bakery in Barkerville was well taken - a whole lunch worth!
