Hi Tom:

We will be presenting a talk on our East Kootenay projects at the Cominco Forum this fall.

The talk will be titled "Findlay Creek Exploration Activity-Working Toward A Major Discovery" presenter: Charlie

Greig

Regards,

Tim J. Termuende

Subject: RE: Sullivan Round Table Meeting - Early Nov.

Tom

Thanks for getting in touch. We plan to invite both the Premier and Minister Neufeld and perhaps some other ministers as well. The conference runs from November 4-6 and will be co-chaired by the World Bank, Cominco and the Mayor of Kimberley. The conference will focus on mining and sustainable development, with a focus on communities. The participants will be by invitation only and will focus on leading experts and representatives of the various communities of interest. They will come from around the world.

It is expected that there will be a political event on Sunday the 4th to mark the sod-turning for the Sullivan Mine Interpretative Centre - a museum and information centre that will have displays on the mine and the role of mining in society. It would be terrific if the Premier and Minister could be on hand for that event and perhaps to open the conference/make some remarks on Monday morning. This event will provide an opportunity to discuss what mining has meant for BC and what skills our BC-based industry takes to the global economy. Pacer Dome's Porgera and Misima mines in Papua New Guinea will be case studies as well as the Antamina mine in Peru (Teck is a major investor in that project).

The Round Table is intended to produce a series of best practices and policies derived from discussions among the participants. I am attaching a preliminary program and will have hard copies sent to you. Invitations to the Premier and minister(s) will follow. Please do not hesitate to call me to discuss. I will be out of the country for the balance of this week, returning next.

Regards,

Dave Parker

David, I have been helping John Hamilton and his team out with the organization for the "Sullivan Geological Meeting" on Nov. 9/10 and am

08/16/2001

attempting to keep my Executive in Victoria informed. I suspect that the new Minister of Energy and Mines, Mr. Neufeld, or even the Premier might like to or be invited to attend one of these meetings. I have been asked to provide further details on these meetings to the Executive. Would it be possible to provide any 'details' regarding the "Round Table" meeting? If TeckCominco has invited or plans to invite either the Minister and/or the Premier, could you please inform (so I can 'alert' the appropriate office re-scheduling)? Thanks very much. Tom.

Subject: RE: 2001 Expl'n Estimates?

Thanks, David. As you may or may not know, I keep a "daily" tracking file of ALL planned projects (that I'm aware of) in the province, by alphabetical name. Once I receive the lists from the respective RGs, I cross-reference the info to my file to make sure WE don't miss anything (at that point in time). I can then share the "provincial" file with you RGs, when requested. If I can be of any assistance with your list, please let me know.

Re: Sullivan talk - the 'preliminary' title of our contribution, given to John Hamilton last week, was "Overview of Exploration Activity in the Sullivan Camp". OK (for now)? Cheers, Tom.

To: Schroeter, Tom EM:EX
Subject: RE: 2001 Expl'n Estimates?

Hi Tom:

I am just trying to put together such a list for my own use as Paul didn't leave any such thing here for me. Assembling this data involves digging through the files to determine if NoW's are present or not so it is taking a bit of time. I will certainly sent it along to you when I get a bit further along with it.

Regarding titles for the November Sullivan talk I haven't had any epiphanies yet but how about one of these for now.

1) Exploration for the Next Sullivan Deposit: Past, Present, and Future

or

2) Exploration for the Next Sullivan Deposit: Overview and Future Trends

Let me know what you think.

Cheers,

Dave

Subject: 2001 Expl'n Estimates?

Gentlemen, as the great philosopher said "now is the time for all good men to come to the aid of the party". As we embark on a new 'era' of exploration (hopefully) in BC, I would very much (as usual) appreciate receiving your most current LIST of exploration projects (NOWs and/or anticipated) at your earliest convenience. This will help me greatly in my role here in the MDO, as well as help in formulating my summer/fall travel plans/visits with each one of you. I know Jacques has recently completed his list; I hope the rest of you have something you can share. Please let me know when and if I can expect to receive something from you. Thanking you in advance for your co-operation and assistance. Tom.

Dear David and Tom:

As mentioned on the telephone recently, you are invited to a speakers' reception/ready room as follows:

**Thursday November 8th, 5:00-7:00 pm,
Room 310, Polaris Lodge (adjoins Trickle Creek Residence Inn by Marriott)
Kimberley.**

Come and meet other authors, as well as Dr. Jon Collins, Vice President, Exploration Business Development, Teck Cominco Ltd., and enjoy some light refreshments. You can also load your slides into carousels or your Powerpoint® presentation onto a hard drive, in preparation for your talk the next day.

Regarding your needs, I understand you want a Powerpoint projector for your talk, as well as one table and one 4' x 8' board at the poster session on Saturday, Please correct me if I'm wrong about this.

I'm also sending you by separate e-mail the schedule of talks, so you can see how you fit in the lineup. The time allotted for your talk is 25 minutes. Please practice your talk enough to be sure you reach your conclusion within the allotted time, as I plan to keep the meeting on schedule.

I retired on September 30th, although I'm still organizing this meeting. My updated contacts are given above in case you don't already have them.

I look forward to a great meeting. Judging by registrations, the interest level is very high. Thank you for your valued contributions to it.

Hi Mike,

Further to Jack Ebbels' discussion with the Minister last week, the Minister will be going to this event and will give the opening remarks. (Jack will not be attending - I believe Fred Hermann will be there?)

Can you please advise who we will need to contact (TeckCominco?) to advise them of this?

Maureen: Have speaking notes been started for this event already? Should I put through an assignment request to EMD for a binder to be prepared for the Minister with agenda/background materials?

Thanks very much! Heather

10/22/2001

Heather:

Please see the exchange of e-mails below with TeckCominco re the Minister/Premier's participation.

We all seem to be in agreement that it would be worthwhile for the Minister to fly into Kimberley for the Sunday afternoon, November 4th 3:00pm dedication of the Sullivan Mine Interpretation Centre and stick around for the Mayor's reception later that afternoon.

If his schedule permits, the Minister could overnight in Kimberley and deliver some Welcoming Remarks at the Roundtable/Conference Opening the next morning at 8:00 am. He could probably be out of there by 10:00 am, at the latest, and on his way back to Victoria.

I've copied Gerald, Ron and Tom on this note - just in case they have any additional information to add.

Regards,

Mike Carter

Tom:

My understanding was that the Minister's schedule is pretty tight that week (CORE Review, etc.). My advice would be to:

- fly him in to Cranbrook/Kimberley on the Sunday, have him do the 3:00 pm ribbon cutting ceremony for the interpretive centre and the Mayor's reception that evening;
- overnight him in Kimberley;
- have him do the Welcoming Remarks at the Conference the next morning, and
- fly him out of Cranbrook/Kimberley Monday late am/early pm

I don't see him flying back in for the Geological Meetings later that week. It would be a nice touch, but I just don't think its practical.

If Fred Hermann is going up to to the Sunday event and the conference - he can make sure the Minister gets introduced to the various heavy-hitters from TeckCominco, etc. He might even be able to line up a few informal one-on-one meetings around the edges of the Sunday afternoon/evening events.

Clearly, Dave Parker is the key contact from the organizer's side. I believe Heather has already placed a call to him to talk about the Minister's attendance and role. She'll advise if she needs anything from us in the way of BNs etc (likely).

Regards,

Mike

Hello all:

It looks like the Sullivan Classic is coming together! I have booked ice time at the Kimberley Civic Center for Saturday, November 10th at 9:00pm-10:15pm. We will have two goalies and a few spares per side. The list as it now stands is:

Chuck Downie
 Mike Walls
 Charlie Greig
 Mike English
 Scott Heffernan
 Dale Mah
 Lawrence Winter
 Darren Fach
 Tom Schroeter
 Geoffrey Bradshaw
 Troy Meyers
 Morgan Polliquin
 Murray Jones
 Frank Gish
 Stewart Harris
 Mark Baknes
 Jason Weber
 Tim Termuende

If you know of anyone else who might want to play, please have them get in touch with me.

See you there!
