7:00	Supper hosted by Teck Cominco, at ski hill	

TGS → Sullivan

## Note to Registrants for the Sullivan Geology Meeting

The meeting is coming up very soon. Interest is very strong, and registration is now full because of limitations imposed by the largest available meeting room in Kimberley.

I have a few points you should note about this gathering, as follows:

1. A desk will be open for pickup of registration kits on Thursday, November 8<sup>th</sup> from 4:00 to 4:30 p.m. at the Quality Inn Downtown and from 5:00 to 5:30 p.m. at the Trickle Creek Residence Inn by Marriott. If you have made other accommodation arrangements, or you can't get to either hotel on Thursday, you can pick up your kit between 7:45 and 8:30 a.m. on Friday at the North Star Lodge at the ski hill.
2. Your registration kit will include numbered tickets for lunch and supper on Friday. Although these are complimentary, **a ticket is required** because of the notice required by the caterer. If your spouse is accompanying you to Kimberley and is not already registered, he/she is also invited to dinner, but you must let us know by Monday November 1<sup>st</sup> at the latest.
3. If you asked to go to the mine on Saturday and have not been denied due to tours being full, your kit will also have a numbered ticket showing which tour you are on. A schedule for mine tours will be in the registration kit. You will need to be on time for the bus pickup for your tour, as getting 180 people through the mine in one day requires tight scheduling (it has never been done before!). Bus departure times will be on your ticket. Please bring appropriate clothing. The exposure you will visit is in a main ventilation drift. Hence, although it will be dry, it will be very windy and **distinctly chilly**. Also, although steel-toed boots are not required, **stout footwear is a must**. We will supply hard hats and lights, and self-rescuers will also be available on the tour.
4. Photography is permitted at the mine, and at the poster session unless an author posts a "no photography" sign.
5. Kimberley is on Mountain (= Calgary) Time, at an elevation ranging from 3600 to 4400 feet. Expect snow.
6. Attached please find a flyer for the just released Sullivan Volume, which will be on sale at the meeting at a special price.

The organizing committee looks forward to seeing you at the meeting!
