

# CUSA

Jan. 17/86

- talk with Andre Panteleyev.

- G'1 Brett says Poloni est.

~ 100,000 tons @ 1.7 oz/t Au (undiluted)

or 100,000 tons @ 0.87 oz/t Au<sup>1/2</sup> (diluted)

with av. 4 ft. wide

Gil Brett

Cable mtn

Oct. 29/96

Melissa Vein - to N of MHC  
will mine

10 level portal

Mine in couple of months

- on hold  
advance  
is shortly  
commence  
completion  
in '97  
25K/MO.

80-90 tpd

Mike

Voll aug vein - u/g drill results?

- drilled surface (12)  
holes - good intersec.

u/g obs'n (4700 portal)  
mining up on the vein @ .5

Lilly  
decline to  
13 level

Open to F  
Still Mining  
1300 level  
(from under)  
to drill

- richest  
vein  
disc.  
ever  
(width  
to 12 ft.  
(100' strip)  
72 opt Au

Exp'n - Surface only - Vollaug

- 60-70 tons/day 1.5 opt Au

Oct. 1996

~~Bruce Spencer~~

> 20,000 oz  
as projected  
\* best yr yet!

\* Taurus

Table Mtn. Sep. 11/97

Gil Brett - Pb <sup>geochem (400ppm)</sup> - east of Hot Lake (26)  
Kechika/Rosella Gr. rx?

'A' zone - Haskins - drilled in late Aug. <sup>good</sup> More in intr. bx.

'new' vein disc. - Melissa Vein (3 hits)

- Lily vein - extension -

Lily vein  
think  
found

- Duo Diligence on Sulphurets

Table Mtn.

Aug. 21/98

- off WWV

Proven + Prob. Reserves = 40,000 oz Au

Geol. Inferred Reserves = 320,000 oz Au

Mill capacity = 300 tons/day

TABLE MOUNTAIN

June 24/99

- chat with Gil Brett (682-2421)
  - down to 'bare bones' at site
  - Mine Mgr. = Dan, Brett (son)
    - Leslie (Red) helping when avail (cf. Toronto)
  - Contact: Radio Telephone - Whitehorse Channel  
(+ Mike Glover) "Cassiar"
- 2M3197 →

- shipped out some flotation concentrate  
but waiting to deliver somewhere (?)  
eg. H.N.C. - closed  
trail - won't accept yet
- Bear Vein - 35 ft. 'open cut'
- no \$ for expl'n

# TABLE M/T/W.

Aug. 26/99

- TGS chat with Gil Brett
- Mill scheduled to re-open ~ Sept. 1st
- to process 'bulk sample' from Taurus, <sup>(see file)</sup>
- No other work (no \$); expect couple of short, low cost (freebie) ddh's by friend.
