(375442). These claims are located northwest of the Promise claims

These acquisitions constitute consolidation of the company's
ground in the historic Wells/ Barkerville area. The company
recently reported acquisitions of mineral tenures from Mr. Williams,
Mr. Merrick and Mr. Melvin Lee Zeiler and joint ventures with
GOLD CITY INDUSTRIES LTD. [GC-CDNX] on the Promise,
Myrtle and Proserpine properties as well as properties from Mr. Bot.

Two Longyear 38 drills producing NQ core (2.37 inch) - will be
moving to the new discovery area, located near the footwall of the
B.C. Vein. The NQ drilling program will allow for deeper drilling
