

POTASSIUM FELDSPAR CONFIRMED AS MARKETABLE - Robert

Metcalfe,

president of Michael Resources Ltd., reports that an evaluation report has been completed by Ainsworth-

* NO.104 (MAY 31, 1989) * GEORGE CROSS NEWS

92P?

Jenkins Holdings Inc., mineral resource consultant, on the company's potassium feldspar property west of Barriere, B.C. The report, combined with independent test work and direct consumer contact confirms that the product is marketable and warrants proceeding with arrangements to process a minimum of 10,000 tons, at the same time further exploring markets for the larger variety of use for potassium feldspar.
