Reliable

WESTERN CANADA

DRAGON RESOURCES LTD. (DGN-V)

GREENSTONE RESOURCES LTD. (GRE-T)

HIGH GRADE GOLD INTERSECTED - Walter J. Clemens, director,
reports Dragoon Resources
Ltd. and 50/50 joint venture partner Greenstone
Resources Ltd. have received further drill results from
the David/Lew claims located 25 miles from Cranbrook in
southeast B.C. See table below. Hole 90-10 was abandoned.

<u>HOLE</u> <u>NO.</u>	<u>LOCATION</u>	<u>ANGLE</u> <u>DEG.</u>	<u>TRUE WIDTH</u> <u>FEET</u>	<u>GOLD</u> <u>GR/TON</u>	<u>GOLD</u> <u>OZ/T**</u>
90-7	2082N/3005E	75	8.3	0.47	0.43
90-8	2109N/3006E	65	8.3	1.24	0.40
90-9	2109N/3006E	75	4.6	0.32	0.32

* = UNCUT ** = CUT

These results indicate continuity of structure and
mineralization along strike to the north. More recent
drilling indicates an increase in sulphides to the
south. Drilling continues. (SEE GCNL No.221, 21Nov90,
