CARPENTER LAKE RESOURCES LTD. (CTA-V)
AMAZON PETROLEUM CORP. (AMZ-V)

ASSAYS AWAITED - Amazon 50% and Carpenter Lake 50% have reported completion of 4 drill holes at the Wayside gold mine Bralorne area 150 km north of Vancouver, B.C. Assays from the holes are awaited. Previously, diamond drill hole 80-S-10 in the same area assayed 10 feet of 2.63 oz.gold/ton and hole 87-1 assayed 5 feet of 1.84 oz.gold/ton.

The four 1991 holes totalled 2,900 feet and all intersected the Hanging Wall vein over 6 to 9.5 ft. and all intersected the Main Wayside vein over 4 to 60 ft. below the ninth level of the mine workings.

Hole 91-4 intersected an astonishing alteration from 463 -523 feet for a total to 60 feet. Mineralization was consistent throughout and all will be split and assayed. Phase Two drilling is planned to start Dec. 2nd on the Commodore and 3I veins where hole 75-A-5 intersected 19.61 oz.gold/ton over a distance of 3 feet. Hole 79-S-1, 1.58 oz.gold/ton over 3 feet and 0.695 oz.gold/ton over 6 feet. Hole 75-A-1, 0.95 oz. gold/ ton over 6 feet and previous trench sampling outline results up to 9.1 oz.gold/ton over 10 inches.
