50% and Rea Gold 50% has reported trenching of IP targets has started on the Newton Hill property located 65 miles (105 km) southwest of Williams Lake, B.C. The trenching and IP is being conducted to follow up trench results found in the 1990 program of 180 feet of .018 oz. gold /ton and 220 feet of 0.10% copper in two trenches 2000 feet apart. The property may be worked year round and Verdstone plans a winter drill program.
