## GERLE GOLD LTD. (GGL-V)

COPPER/GOLD PROSPECT ACQUIRED - Raymond A. Hrkac, president, reports Gerle Gold Ltd. has staked a porphyry copper/gold prospect adjacent to its McConnell Creek property, located 150 miles north of Smithers, B.C. During the 1960's and 70's, the area was explored for its high grade copper occurrences

exposed by trenching within an area of 1,000 feet by 500 feet. Some of the values in assessment reports are:

<u>SAMPLE WIDTH</u> <u>FEET</u>	<u>COPPER</u> <u>%</u>	<u>GOLD</u> <u>OZ/T</u>	<u>SILVER</u> <u>OZ/TON</u>	A recent exam- ination by Gerle found there is extensive copper mineralization occurring in a quartz-monzonite with the typical

-----  
' potassic alteration associated with porphyry copper deposits. This showing, together with the previously reported large soil copper anomalies located on the McConnell Creek gold property, indicate the potential for several copper/gold porphyry deposits within the claim area 100%-owned by Gerle Gold.
