## ALBAN EXPLORATIONS LTD. (ABN-V)

DRILLING UNDERWAY - Hiro Ogata, president, reports Alban Explorations has begun the winter drilling program on the Mitzi property located in the Mt. Milligan area of central B.C. Alban is earning a 50% interest from HEMLO GOLD MINES INC. (HEM-V,T,M). Noranda is project manager. The first four of some 15 diamond drill holes are north and south step-outs from the two best holes drilled last January. Hole 91-8 cut a section grading 0.008 oz. gold/ton over 72 feet while hole 91-10 contained one interval grading 0.026 oz. gold /ton over 27 feet and another of 0.29% copper over 16 ft.
